

HB 74 -- School Funding

Sponsor: Lampe

This bill adds the gifted education pupil count to the calculation of weighted average daily attendance for the school foundation formula. The pupil count will be taken on the last Wednesday in January for the preceding school year based on participation in a state-approved program. The weight per pupil is twenty-hundredths, and no threshold is required.

The bill also removes the 5% limit on any increase in the state adequacy target when it is recalculated every other year.
